

New EPA Regulation 40CFR, part 280, Requires Sumps to be Tested Every 3 Years, Starting in 2018 Are You Ready?

CLD Series Portable Containment Sump Tester

The CLD series Sump Tester is available in 3, 4, 6, & 8 probe versions. Each is conveniently stored in a durable case equipped with wheels for ease and accessibility. Pull up, set up, and test in as quick as 15 minutes. Results print out and can be stored internally.

Each system includes:

- (1) Case with wheels
 - (1) OEL8000III-CLD* Microprocessor based controller with printer
 - (* MTG-probe input connectors (1 per probe)
 - (* MTG-probes with mounting brackets (3,4,6,&8 probe models)
 - (* Suspension chains with "s" hooks for MTG-probes (1 per probe)
 - (* 50ft MTG-probe cables (1 per Probe)
 - (1) 6ft three-pronged power cord (remove protective padding from case to access)
- *quantities reflect CLD series version purchased (ie. CLD 3, 4, 6, & 8)*
