

Waste Coolant Tanks

The Preferred Solution to Collect and Recycle Used Coolant

325 Gallon Tank

The cylindrical tank (Model #C325FTAWC) properly handles up to 325 gallons of waste coolant. The tank features a 1" MNPT, 2" MNPT fitting and an 8" lid on the top of the tank. There is not a bottom bulkhead, to aid in leak and spill prevention.

- 81.25"H x 36" Dia
- 92 Lbs.

160 Gallon Tank

The cylindrical tank (Model #C160FTAWC) properly handles up to 160 gallons of waste coolant. The tank features a 1" MNPT, 2" MNPT fitting and an 8" lid on the top of the tank. There is not a bottom bulkhead, to aid in leak and spill prevention.

- 67.5"H x 28" Dia
- 56 Lbs.
