THE EMV UPGRADE DEADLINE HAS PASSED!

If you still need to upgrade your EMV, please call your local sales/service office for details and to schedule an appointment.

EZ-Grip Filter Cup

The innovative design makes it easy to grip the filter and catch fuel when replacing dispenser filters. This allows for faster change-outs and less dispenser downtime and prevents fuel from getting on your hands or in the sump.

CT60070

\$21.95

Spill Containers

Remember to:

- Keep it clean and free of liquids and debris
- Inspect it after it rains
- Inspect it before and immediately after product delivery
- Inspect it every 30 days:
- Check all seals, including around fill riser for cracks, damage or holes
- Test it every three years and, if necessary, repair or replace it
