

FUELMASTER *3500 Series*

Your Fixed Site Fuel Management Solution

The FuelMaster 3500 series is engineered to provide a turnkey fuel management solution for capturing fuel transactions in any location. Each unit is built to custom specifications to meet the precise needs of the fueling site. With fuel access 24/7, organizations can be confident that transactions are being accurately tracked providing increased accountability & physical security at the fueling site as well as eliminating unauthorized use of fuel. Paired with our patented AIM technology, vehicle telematics (On-Board Diagnostics & Driver Behavior) data is accessible at the click of a button and fueling has never been easier by removing the need for operator input.
