

The Art of Speed

Wayne Ovation® HS fuel dispenser

DFS Worldwide Brands

The Envy of the Truck Island

Wayne Ovation® HS fuel dispensers add ultra-high fueling performance to the modern, user-friendly Wayne Ovation fuel dispenser series – now you can have a consistent brand image and user experience between your islands and your high-volume truck islands. You can also have access to all of the advanced technology the Ovation fuel dispenser features – leading secure payment technology, large VGA display options and media – to optimize user-friendliness and maximize sales.

The Ovation HS ultra-high-capacity fuel dispenser series offers the widest choice of diesel exhaust fluid (DEF) dispensing configurations – from the convenience and space-saving benefits of combined diesel and DEF dispensers to the flexibility of standalone DEF-only dispensers. A broad variety of cold and unique warm climate models ensures there is a DEF solution best-suited for your region and site layout. Innovative user features and special DEF-compatible components provide you with dispensers that are both easy to use and maintain.

DFS Worldwide Brands

Friendly, Secure and Easy to Use

Capability

The smart design of this dispenser maximizes refueling throughput, and streamlined high-flow hydraulics can provide impressive flow rates up to 60 GPM with master and satellite hoses combined.

Usability

Even when mounted on a fueling island, Ovation HS fuel dispensers are fully ADA-compliant. These dispensers also offer the same user-friendly interface options as standard Ovation dispensers, including Dover Fueling Solutions' (DFS) leading secure payment technology, plus a new, secure alphanumeric keypad option for special trucking cards. The combination of diesel and DEF models provide the convenience of diesel and DEF from the same location.

Durability and Reliability

The Ovation fuel dispenser is more than a pretty face. Its robust construction with tempered glass, metal in high-touch areas and extruded aluminum side columns makes it well-suited for rough truck stop environments. Ovation HS fuel dispensers use the same heavy-duty Liquid Controls™ meter proven for decades in all DFS Ovation HS fuel dispensers in demanding high-flow, high-pressure applications. Unique DEF module features provide dependable coldweather performance.

Security

Wayne™ Dispenser Secure Access electronic door security is standard on lower diesel doors and is also available for bezel doors as an option, providing the capability to disable dispensers when unauthorized dispenser entry is attempted. Added layers of security are provided through a lockable metal pulser cover and pulse-monitoring technology.

Flexibility

A wide variety of models, including standalone diesel, cold-climate diesel + DEF, warm-climate diesel + DEF, standalone DEF, and high-flow/standard-flow diesel, ensures there is a dispensing configuration that best fits your region and site.

More Than a Pretty Face

Sleek, Modern Ovation Dispenser Cabinet Design

Consistent brand image across both consumer and high-volume truck islands

Robust and Corrosion-Resistant Construction

Aluminum panels, tempered glass & metal in high-touch areas withstand rough truck stop environments

Satellite-In-Use Indicator

Informs user of satellite status to prevent unauthorized fueling from hidden side of truck

ADA Compliance Even When Mounted on an Island

Eliminates keypad mapping and provides consistent, user-friendly interface

Secure Alphanumeric Keypad Option

Enables alpha entries for special trucking credit cards

Same User Controls as Standard Ovation Dispenser

Ovation secure payment, large display and media options provide common fueling experience across all fueling islands

Secure Access Lower Door Security

Helps deter theft by disabling dispenser when unauthorized entry is attempted

Heavy-Duty Liquid Controls Meter

Proven for decades in Wayne HS dispensers; withstands demanding high-pressure/high-flow fueling applications

Dual 40-GPM Filters

Protect both meter and satellite; help clean fuel without sacrificing performance

Electronic Meter Calibration

Quick one-step electronic calibration simplifies start-up and maintenance

Pulser Security

Lockable metal pulser cover and pulsemonitoring technology provide additional layers of security

Diesel + DEF From One Dispenser

Right or Left Side Cold-Climate DEF Module

Specify left or right side to meet site requirements

Hose Handling Cabinet with Heater

Protect hose and nozzle from freezing down to -40°F

Single Unit Diesel and DEF Construction

Installs in one step to simplify installation

DEF Component Cabinet with Heater

Cabinet-within-a-cabinet design with dedicated heater protects DEF components down to -40°F

Clear Nozzle Window

Makes nozzle location easily identifiable to users

Patented Self-Closing Nozzle and Hose Doors

Quick access with automatic closing to help prevent DEF from freezing in cold weather

Retractable Nozzle and Hose Doors

Lock in open position in warm weather to provide convenient access most of the year

Best-In-Class Innovative Hose Handling

First six feet of hose is tension-free and an additional 5.5 feet of automatically retractable hose provides extended reach to fill up tanks not lined up with dispenser

Hose-Opening Rollers

Rollers ease hose handling and protect cabinet from wear

Heavy-Duty Hose Doors

Recessed doors with narrow opening protect doors from abuse from kicking

Underground or Overhead Inlet Piping Pptions

Provide flexibility to meet your specific installation requirements

The Freedom to Choose

Ovation® HS Fuel Dispenser

Diesel Only + Satellites

High-performance master and satellite models are for diesel only. All masters are equipped satellite-ready for each master hose. Satellite dispensers may also be used with the diesel master hoses in the diesel + DEF models.

Ovation® HD Fuel Dispenser

Diesel + Cold-Climate DEF

Introducing our convenient and space-saving combination HS diesel and DEF models. For cold climates where temperatures may fall below 12°F and DEF freezing is a concern. A special heated and insulated DEF hydraulic and hose handling cabinet replaces one of the standard side columns. The DEF module may be ordered on the right or left side; one side only.

Ovation® HW Fuel Dispenser

Diesel + Warm-Climate DEF

The economical combination HS diesel and DEF models are for warm climates where temperatures are always above 12°F and DEF freezing is not a concern. Diesel and DEF hydraulics are housed together in the standard unheated Ovation dispenser cabinet. A left-facing DEF hose is provided on each side of the dispenser that has a master diesel hose.

Ovation® HL Fuel Dispenser

High-Flow Diesel + Standard Flow

The Ovation HL fuel dispenser boasts flexible, combination models with Liquid Controls™ meters for high-flow diesel and Wayne iMeter™ fuel meter for standard-flow diesel or gasoline products. The HL model provides flexibility for handling large trucks and passenger vehicles from the same dispenser. A standard-flow hose is provided on each side of the dispenser that has a master diesel hose. As you face each side of the dispenser, the standard-flow hose can be found on the left side of fuel dispenser. The high-flow diesel and standard-flow hydraulic trees have separate inlets. The standard-flow hoses are limited to one product.

Ovation® D DEF Dispenser

Standalone DEF

The cold climate DEF-only model is for regions where temperatures may fall below 12°F. It has a special heated DEF hydraulic and hose handling cabinet that replaces one of the standard side columns and the other column is removed to save space. The DEF module may be ordered on the right or left side and is only available in a single side model.

Warm-climate DEF-only models are for regions where temperatures are always above 12°F. The DEF hydraulics are located in the standard unheated Ovation cabinet. Single and dual-sided models are available.

This is What Model Flexibility Looks Like

Diesel + Cold Climate DEF Dis	spensers						
		Hoses					
Туре	Model	Side	Side A				Diesel Inlets
		Master	DEF	Master	Sat.	DEF	IIIICto
Single Master + DEF	HD11/1130Dx/2J/6G	1	1	0	0	0	1
Dual Master - One Prod. + DEF	HD11/1230Dx/2J/6G	1	1	1	0	0	1
Master/Satellite Combo + DEF	HD12/1230Cx/2J/6G	1	1	0	1	0	1 (+1 sat.)
Dual Master - 2 Prods. + DEF	HD12/1230Dx/2J/6G	1	1	1	0	0	2

Cold Climate DEF module can be ordered on right or left of A side. For left side, "3" in model string changes to "4."

Diesel + Warm Climate DEF D	ispensers							
		Hoses						
Туре	Model	Side	Side A		Side B		Diesel Inlets	
		Master	DEF	Master	Sat.	DEF	ii iioto	
Single Master + DEF	HW22/2120Dx/2J/G	1	1	0	0	0	1	
Dual Master - One Prod. + DEF	HW22/2220Dx/2J/G	1	1	1	0	1	1	
Master/Satellite Combo + DEF	HW23/2220Cx/2J/G	1	1	0	1	0	1 (+1 sat.)	
Dual Master - 2 Prods. + DEF	HW23/2220Dx/2J/G	1	1	1	0	1	2	

DEF is always left hose. DEF is always one inlet.

High Flow/Standard Flow Diesel	Dispensers						
		Hoses					
Туре	Model Side A		e A	Side B			Diesel
	Widdel	Master	Std. Flow	Master	Sat.	Std. Flow	Inlets
Single Master + Std. Flow	HL22/2120Dx/2J/G	1	1	0	0	0	1
Dual Master - One Prod. + Std. Flow	HL22/2220Dx/2J/G	1	1	1	0	1	1
Master/Satellite Combo + Std. Flow	HL23/2220Cx/2J/G	1	1	0	1	0	1 (+1 sat.)
Dual Master - 2 Prods. + Std. Flow	HL23/2220Dx/2J/G	1	1	1	0	1	2

Std Flow is always one product/1 inlet (diesel or gasoline). Std. flow hose is always left hose.
