Fill- Rite and GPI Fuel Transfer Pumps (Limited Supply)

Designed to dispense gasoline, diesel and kerosene.

Fill-Rite - FR152 Hand Pump

The FR152 model is a 20 gallons per 100 strokes, hand lever fuel transfer pump. This pump and accessory bundle come complete with a spout, suction pipe, discharge hose, and installation components.

- Cast-Aluminum Construction – built to last with rugged cast-aluminum construction, designed for maximum durability and lifetime corrosion resistance
- Faster Filling – Double piston action delivers premium performance with 20 gallons every 100 strokes, saving time and reducing physical strain
- No Electricity Needed— ideal for low-volume applications where access to power is not available or required, allowing for stationary use or complete mobility
- Consistent Performance – onboard vacuum breaker facilitates uninterrupted performance and creates smoother flow at the discharge
- Theft Prevention — padlock-compatible handle adds security to protect your investment
- Prevents Spillage – included discharge nozzle storage and anti-siphon technology prevent accidental fuel spillage, eliminating mess enhancing safety

Part#: FR152 Price ~~\$295.00~~

GET READY FOR WINTER!

Fill-Rite - FRSD1202 Fuel Transfer Pump Package

The FRSD1202 fuel transfer pump comes with a telescoping suction pipe, 10 foot delivery hose and manual release nozzle

- 1/4 HP, 12VDC, 20 AMP DC motor
- 13 GPM flow capacity at 2600 RPM
- Cast iron housing with buna -n mechanical seal and O-ring for durability
- Suitable for the transfer of gasoline, diesel, B-20, E-15 kerosene and mineral spirits.

Part# FRSD1202 Price: \$470

Sale Price: \$305.00

GPI (Great Plains) GPRO 20GM 115V Fuel Transfer Pump with M30 Fuel Meter

This is a perfect pump and meter combination for thin viscosity petroleum fuel. It delivers flow rates up to 20 GPM (76 L/min).

In addition, it is ideal for a stationary fuel tanks because the weight-centering inlet base reduces stress on the tank bung and it has convenient strainer access.

- Type of Liquid: Alcohol Blends such as E15/ AVGas, Biodiesel Blends such as B20, Diesel, Gasoline, Kerosene
- Delivery Type: Electric • UL Listed Approved
- Flowrate: 20 Gallon per Minute
- Inlet Size: 1 inch • Outlet Size: 1 inch

Pump only with M30 Meter – Gallons

Part # GPI503000-78 Price: \$1453.00

Sale Price: \$1090.00

Automatic Shut-off Diesel Nozzle with M30 Meter – Gallons

Part # GPI503000-80 Price: \$1720.00

Sale Price: \$1300.00

GET READY FOR WINTER!

Spill Container Mat

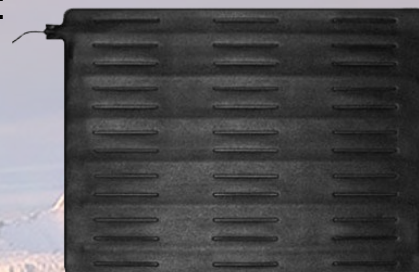

Protect your spill containers from water intrusion. You can install or schedule our service department to install for you:

Mat: **Size 48"x 54"**

Part number: **PR1/4"X48"CI** Price: **\$213.25**

Installation Kit: **Hardware**

Part number: **MAT KIT** Price: **\$48.73**

Call Us for Testing!

Our ICC, and STI certified technicians are experienced, and knowledgeable.

Call us to schedule:

- AST and UST Tank System Inspection
- DOE, EPA, and Clean Air Compliance Testing
- Meter Calibrations
- Fungal, and Microbial Fuel Sampling
- Mobile Fuel Polishing
- Galvanic, and Impressed Current Cathodic Protection Surveys
- Inspection Assistance
 - Monthly, and annual walkthrough inspections
 - Pre-regulatory inspection check-ups
 - Mascott Technicians also available to assist with all regulatory site inspections

Contact your local sales and service office for details.
