**Fluid Transfer Hand Pumps**

**50 Gallon per 100 Stroke Lever Action**

Manufacturer: GPI

Fuel Piston Hand Pump for Pumping Fuel and Motor Oil.

Features and Benefits

- Dual-Flo® piston design pumps fluid on both the push and pull stroke, Built-in anti-siphon valve.
- Includes a low setting for low-volume, low-resistance pumping (1/4 gallon) and a high setting for high volume, high-resistance pumping (1/2 gallon).
- Light-weight aluminum body provides corrosion resistance and reduces tank stress.
- Lockable handle deters fluid theft. Fits a 2 in. NPT bung.
- Includes a 3/4 in. x 8 ft. (2.44 m) Nitrile fuel dispensing hose with static wire and metal nozzle.
- For use with diesel (diesel blends to B20), gasoline (alcohol blends up to E15), Hydraulic fluid, kerosene and 30W oil.
- 2-yr Warranty U.L. Listed

**Part number GPI114000-10 Price ~~\$333.00~~ Now: \$230.00**

**20 Gallon per 100 Stroke Lever Action**

Manufacturer: GPI

Diaphragm Pump for Pumping Fuel and Motor Oil.

Features and Benefits

- Lever action diaphragm pump with lockable handle, deters theft.
- Can be used to pump dirty or contaminated fluids.
- Lightweight, die-cast aluminum housing for easy installation.
- Lock nut for securing pump orientation on tank
- Stainless steel piston shaft and Buna-N diaphragm and seals for long pump life.
- For use with gasoline up to E-15, diesel fuel up to B-20, kerosene, hydraulic fluid, oil up to 30W
- Built-in air valve to prevent leakage at nozzle.
- 2-yr Warranty U.L. Listed

**Part number GPI138000-02 Price ~~\$467.00~~ Now: \$320.00**

**B5 DIESEL FUEL DECAL for  
WAYNE OVATION ACTUATOR**

• For Ovation 1 and Ovation 2 Dispensers

**Part number WY888460-001-335 Price: \$22.68**

## 12V FUEL TRANSFER PUMP 20 GPM

Manufacturer: GPI

The GPI G20 Series Fuel 12V transfer pump delivers flow rates up to 20 GPM.

### Features and Benefits

- Manual Nozzle, 14 ft hose, suction pipe
- Drip catch-Lockable nozzle holder keeps your truck & tanks clean and stops fuel theft
- Rotary gear design: fewer moving parts means less friction and wear on components, for minimal maintenance and a longer pump life
- Factory-Installed power cord saves installation time
- Spin collar mount makes installation and pump orientation easy - fits any 2" NPT tank
- For use with gasoline up to E15 | diesel fuel up to B20 | kerosene

**Part number: GPI162000-02 Price ~~\$827.00~~ Now: \$620.00**

## 115V FUEL TRANSFER PUMP WITH QM FUEL METER

Manufacturer: GPI

115V pump and meter combination. Available in a variety of configurations with flow rates of 20 GPM or 35 GPM.

### Features and Benefits

- Extreme accuracy of QM meter
- Center base inlet with check valve
- Vacuum breaker ready
- Extended duty cycle exceeds industry standards
- Thermally protected motor
- Field replaceable switch and vanes
- For use with gasoline up to E15 | diesel fuel up to B20 | kerosene

## TANK IDENTIFICATION COLLARS

Storage Tank ID Collars clearly identify the type of fuel contained in underground tanks, minimizing the risk of mistakes during re-fueling operations.

- Size: 3.5 inches x 38 inches

Below are our most popular tank collars. Call for information on other tank collars.

Description	Part Number	Price
Unleaded Regular	USUTC3	\$20.00
Premium Unleaded	USUTC4	\$20.00
Diesel #2	USUTC8	\$20.00
Non-Ethanol Premium	USUTC-NONETH	\$20.00
Vapor Recovery	USUTC21	\$20.00
B-20 Bio-Diesel	USUTC500C	\$29.95
Bio-Diesel	USUTC41	\$20.00

## DIGITAL FUEL METER

Manufacturer: GPI

Main Specifications

- Connection Size: 1 in
- Connection Type: NPT Female
- Flow Range: 3-50 GPM
- Application/Flow: no rate of flow
- Pressure Rating: 300 PSI (21 Bar)
- Operating Temperature: 14 degrees (F) to 130 degrees (F)

**Part number: GPI1139000-9501 Price \$472.00 Now: \$350.00**
